

## **Oregon Chapter August 1-3 Lincoln City**

We had 20 rigs and 30 women filling our sites here at Devils Lake RV Park at the Oregon coast. The club room was filled with laughter and stories as we got to know our guests and caught up with old friends. Good food and games kept us happy when not exploring the local sights.

Our Friday night finger food dinner and Saturday potluck overflowed the tables. Saturday morning Pat came from Les Schwab to make sure we knew how to find the DOT date on tires and why we should care. He gave us new tire pressure gauges to help us stay safe on the road. We also had tables loaded with books for an exchange of something new to read.

Sunday morning our hosts, Barb and Martha (Mom to all) provided all the fixings for boil in a bag omelets loaded with your choice of extras and got most of the gals out of bed for a hearty breakfast. Then we were off to the Craft and Farmers Market for items we didn't even know we needed. Some made a final run up to the Tanger Outlet stores with the coupon book and bags provided, or gave the Chinook Winds Casino one last chance to change their luck. Dinner out was split that night between those who wanted the ocean view and those who wanted to save a little. The money savers decided that next time we would all go for the view!

The weather was great all weekend and many came back with sand in their shoes and smiling dogs. Devils Lake RV Park is one of our favorite stops along the coast and even the road construction didn't slow us down too much as we explored Lincoln City's shops and shores. We christened 3 rigs and a couple gals even made it onto the lake in paddle boats.

Pam and Ann brought their yummy peanut brittle and apricot/pineapple jam for us. We were all happy to do our bit to lighten their load going back home to Utah.

Monday our usual goodbyes and happy trails until Coos Bay in September.
